

Promoter / Executive Profile – Veena Jose, PGD (Fin), B.Sc. (Physics)

Veena Jose is the Chief Financial Officer and a Whole time Director of **Progen Renewables Ltd**, a company engaged in advancing sustainable energy solutions with a strong commitment to operational and financial excellence. With over two decades of professional experience spanning finance management, IT systems, and corporate governance, she brings a rare blend of technical acumen and strategic financial expertise to the leadership team.

Her career began as a software engineer, where she quickly rose to the level of Lead Systems Engineer at Tata Infotech Ltd, managing complex software projects across coding, design, testing, and project management. This early grounding in IT laid the foundation for her later success in integrating finance operations with technology-driven solutions. She further enhanced her financial expertise as an Analyst with *Dalal Street Journal*, where she specialized in analyzing the financial performance of listed companies.

At Progen Renewables Ltd, she has been instrumental in setting up and streamlining the finance team, implementing robust MIS reporting systems, and ensuring compliance with regulatory frameworks. She has successfully driven cost optimization, cash flow management, and budgeting processes, thereby strengthening the company's financial resilience and readiness for future expansion. Her leadership has enabled the company to adopt best practices in governance and financial discipline, critical for scaling towards public listing.

Prior to her corporate role, she worked as an Analyst at the Dalal Street Journal. She then gained hands-on expertise in Oracle Financials and Tally during her tenure as an Oracle Financials Professional at Medha Computing. Her dual competency in IT and finance empowers her to bridge operational and strategic requirements, ensuring efficiency, transparency, and risk mitigation in financial processes.

She holds a **Post Graduate Diploma (Finance)** from the Institute of Technology and Management, Bangalore, and a **Bachelor of Science in Physics** from Assumption College, Kerala.

With a proven record of managing finance operations in small and medium enterprises and experience across diverse domains, Veena Jose combines financial stewardship with a vision for sustainable business growth. Her leadership continues to be a driving force in positioning Progen Renewables Ltd as a competitive, governance-focused, and financially sound enterprise poised for listing and long-term value creation.
